E. Notes to the condensed interim consolidated financial statements

1. Corporate information

The Company is listed on the Singapore Exchange Mainboard and incorporated and domiciled in Singapore as a limited liability company.

These condensed interim consolidated financial statements as at and for the six months ended 30 September 2022 comprise the Company and its subsidiaries (collectively, the Group).

The principal activity of the Company is that of an investment holding company. The principal activities of the subsidiaries are:

- i. Manufacturing and sales of tower cranes and related components; and
- ii. Rental and servicing of tower cranes and construction machinery

2. Basis of preparation

The condensed interim financial statements for the six months ended 30 September 2022 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for the year ended 31 March 2022. All references to SFRS(I)s and IFRSs are subsequently referred to as SFRS(I) in the financial statements.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1. The condensed interim financial statements are presented in Renminbi ("RMB") which is also the Company's functional currency, rounded to the nearest thousand ("RMB'000").

2.1 New and amended Standards adopted by the Group

The Group has applied various new accounting standards and interpretations of accounting standards for the first time for the annual period beginning on 1 January 2022. The application of these standards and interpretations did not have a material effect on the condensed interim financial statements.

2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 March 2022.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3. Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the financial period.

4. Segment and revenue information

Management has determined the operating segments based on the reports reviewed by the Group's chief operating decision-maker that are used to make strategic decisions, allocate resources, and assess performance.

The Group's chief operating decision-maker considers the business from a geographic segment perspective. Management manages and monitors the business in the two primary geographical areas of operations namely, 1) the PRC and 2) Hong Kong and Macau. The following summary describes the operations in each of the Group's reportable segments:

The PRC : Engaged predominantly in the manufacture and sale, with some rental and servicing of tower

cranes and tower crane components and accessories

Hong Kong and Macau : Engaged predominantly in the rental and servicing, with some sale of tower cranes and tower

crane components and accessories.

Other segments included corporate functions and the sale and servicing of tower cranes and tower crane components and accessories in Singapore. These are not included within the reportable operating segments as they are not separately reported to the Group's chief operating decision-maker and does not meet the quantitative thresholds required by SFRS(I) 8 for reportable segments. The results of these operations are included in the "All other segments" column.

The segment information provided to the Group's chief operating decision-maker for the reportable segment is included below. Performance is measured based on segment profit before taxation, as included in the internal management reports that are reviewed by the Group's chief operating decision-maker. Segment profit is used to measure performance as management believe that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

16. Fair value of assets and liabilities

Fair value measurement of financial instruments

Financial assets and financial liabilities measured at fair value in the statements of financial position are grouped into three Levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly

or indirectly.

Level 3 : unobservable inputs for the asset or liability.

REVIEW OF INCOME STATEMENT OF THE GROUP

First Half FY2023 ("1H FY2023") vs First Half FY2022 ("1H FY2022")

Revenue

Group revenue decreased by 18.7% to RMB513.2 million in 1H FY2023 as compared to RMB631.4 million in 1H FY2022 due to the high base a year-ago as business activity resume normalcy from the COVID-19 pandemic when certain back-log deliveries were fulfilled. The revenue for 1H FY2023 was also affected by a lackluster property market and recent COVID-19 outbreak in the PRC. Restriction has again been imposed in various cities, with stay-home orders and movement restrictions, resulted in slower business activities. As a results, revenue in the PRC reportedly lower by 42.4% from RMB364.5 million in 1H FY2022 to RMB210.1 million in 1H FY2023. The decrease in revenue were partly offset by the increase in sales to Asia (outside of the PRC) of RMB55.5 million, from RMB183.3 million in 1H FY2022 to RMB238.8 million in 1H FY2023.

Overall, sales in Asia (outside the PRC) and the PRC contributed to 46.5% and 40.9% respectively of the Group revenue in 1H FY2023.

Revenue from sales of tower cranes and components decreased by RMB147.2 million from RMB526.3 million in 1H FY2022 to RMB379.1 million in 1H FY2023. The decrease was partly offset by increase in rental and service income of RMB29.1 million during the period under review with more government projects for both infrastructure and residential in Hong Kong.

Gross profit and gross profit margin

In line with lower revenue, gross profit decreased by 15.4% to RMB148.0 million in 1H FY2023 from RMB174.9 million in 1H FY2022.

Despite lower revenue, average gross profit margin increased to 28.8% in 1H FY2023 from 27.7% in 1H FY2022.

The higher gross profit margin in 1H FY2023 is due to product mixed as higher sales proportion for large and mega size tower cranes were sold and higher rental income which generate higher sales margin during the period under review.

Other income

Other income increased by RMB2.1 million to RMB6.5 million in 1H FY2023 as compared to RMB4.4 million in 1H FY2022. Other income mainly includes government subsidies and rebates/grants of RMB3.5 million. The government subsidies and rebates were received from various authorities, as part of the financial assistance to help businesses tide through the pandemic and encouragement for technology invention.

Other income also includes rental income and ancillary charges of RMB0.7 million which pertains to sub-rental income from Hong Kong yard, insurance compensation of RMB0.3 million and debts no longer required to pay of RMB0.8 million respectively.

Operating expenses

Total operating expenses decreased 13.2% to RMB104.0 million in 1H FY2023 as compared to RMB119.7 million in 1H FY2022.

Distribution costs decreased 13.6% to RMB57.0 million in 1H FY2023 as compared to RMB65.9 million in 1H FY2022 in line with lower revenue during the period under review. The decline is mainly from lower freight and transportation expenses.

Administrative expenses increased 8.2% to RMB41.7 million in 1H FY2023 as compared to RMB38.6 million in 1H FY2022 mainly due to higher employee costs.

Other operating expenses reported a credit balance of RMB3.3 million in 1H FY2023 as compared to a debit balance of RMB7.0 million in 1H FY2022. The difference was mainly due to an exchange gain of RMB13.9 million in 1H FY2023 as compared to RMB0.1 million in 1H FY2022. The increase is partly offset by higher impairment provision for expected credit loss ("ECL") of RMB1.9 million and provision for impairment in property, plant and equipment of RMB1.8 million. The impairment provision for ECL increased to RMB6.5 million in 1H FY2022 as compared to RMB4.6 million in 1H FY2022 due mainly to the slower repayment in the PRC. Provision for impairment in property, plant and equipment of RMB1.8 million relates to the tower crane incident in Hong Kong. Please refer to para 4 on page 19 for more information.

The exchange gain for 1H FY2023 arose mainly from:

- a) the strengthening of USD against RMB due to net USD assets in the Singapore's subsidiary's book; and
- b) the strengthening of Singapore Dollars ("SGD") and Hong Kong Dollars ("HKD") against Renminbi ("RMB") due to net RMB liabilities in the Singapore subsidiary's book and Hong Kong subsidiary's book;

Finance costs marginally decreased 3.3% to RMB8.0 million in 1H FY2023 due mainly to lower letter of credit discounting charges in 1H FY2023 despite higher interest cost due to higher average borrowings.

Taxation

Income tax expense lowered to RMB8.7 million in 1H FY2023 as compared to RMB11.6 million in 1H FY2022 in line with lower operating profits. The lower effective tax rate was due to unrealised of unabsorbed tax losses previously not recognized.

Other comprehensive income/(expenses)

The Group reported other comprehensive income of RMB25.8 million in 1H FY2023 as compared to other comprehensive expense of RMB17.0 million in 1H FY2022. Other comprehensive income pertains to gain on exchange translation of RMB23.2 million arose from translation of the net assets of our Hong Kong and Singapore subsidiaries and RMB2.6 million fair value gain of financial assets, FVOCI.

HKD and SGD appreciated 11.9% and 5.9% respectively against RMB as at 30 September 2022 as compared to last financial year end.

Profit before taxation and Net profit attributable to equity holders of the Company

The Group recorded a profit before taxation of RMB50.5 million in 1H FY2023 as compared to RMB59.6 million in 1H FY2022 mainly due to lower gross profit from lower revenue, partly offset by lower operating expenses.

Net profit attributable to equity holders of the Company decreased to RMB38.3 million in 1H FY2023 from RMB44.5 million in 1H FY2022. This was mainly due to lower profit before taxation, offset by tax expense.

REVIEW OF FINANCIAL POSITION OF THE GROUP

Non-current Assets

Non-current assets increased by RMB35.3 million to RMB677.2 million as at 30 September 2022 mainly due to higher property, plant and equipment, higher financial assets, at FVOCI and higher deferred tax asset.

The increase of RMB31.8 million in the Group's net carrying amount of property, plant and equipment was mainly attributable to the increase in rental fleet, partly offset by net depreciation charges and disposals. With the increase demand for rental sales in the PRC and Hong Kong, a number of large and mega size tower cranes were added to the operations. The increase was also partly due to the exchange translation differences from Yongmao Hong Kong as HKD appreciated significantly by 11.9% against RMB for the period under review.

Deferred tax assets arose mainly from unrealised profits in intragroup sales and the various provisions made.

Financial assets, at FVOCI increased with fair value gain of RMB2.6 million as at 30 September 2022.

Current Assets

Current assets increased by RMB100.8 million to RMB1,316.5 million as at 30 September 2022 mainly due to higher cash and cash equivalents (see Note on Review on Cash Flow Statement below), higher inventories and higher amount owing by related parties, partly offset by lower trade and other receivables.

Trade and other receivables decreased by RMB41.1 million to RMB572.4 million as at 30 September 2022. Lower trade receivables mainly due to faster repayment from customers.

Inventories increased by RMB33.5 million to RMB409.6 million as at 30 September 2022 as compared to RMB376.1 million as at 31 March 2022. The higher inventory mainly due to the deferral of delivery by customers.

Amount owing by related parties increased by RMB12.6 million to RMB40.2 million as at 30 September 2022 due to higher sales over repayments by related parties.

Non-current Liabilities

Non-current liabilities decreased to RMB66.6 million as at 30 September 2022 from RMB68.8 million as at 31 March 2022. Borrowings repaid of RMB3.9 million during the period under review, to report at RMB6.6 million as at 30 September 2023. The decrease was offset by higher deferred tax liabilities by RMB3.0 million to RMB39.7 million as at 30 September 2022.

Deferred tax provision was mainly made for withholding tax levied on dividends of undistributed earnings of PRC subsidiaries, accelerated tax depreciation on inter-company sales of tower cranes used as rental fleet.

Current Liabilities

Current liabilities increased by RMB74.8 million to RMB973.5 million as at 30 September 2022 as compared to RMB898.7 million as at 31 March 2022 mainly due to higher trade and other payable and higher borrowings.

Trade and other payables increased by RMB33.3 million mainly due to higher purchases over payment.

Borrowings increased by RMB38.0 million mainly due to higher financing in YMHK for the new rental fleets.

Total Equity

As at 30 September 2022, the Group's total equity amounted to RMB953.5 million. The increase was mainly due to total comprehensive income of RMB67.7 million for 1H FY2023, partly offset by dividends paid in 1H FY2023.

REVIEW OF CASH FLOW STATEMENT

1H FY2023 vs 1H FY2022

The Group reported a net increase in cash and cash equivalents amounting to RMB93.9 million in 1H FY2023 mainly due to:

- a) Net cash generated from operating activities of RMB65.8 million resulted from operating profit before working capital changes, decrease in operating receivables and increase in operating payables, partly offset by increase in inventories, interest and taxes paid.
- b) Net cash used in investing activities of RMB2.8 million from acquisition of property, plant and equipment, partly offset by interested received; and
- c) Net cash generated from financing activities of RMB31.0 million mainly from higher net proceed from borrowings, partly offset by higher restricted bank balances, repayment of principal portion of lease liabilities and interest paid.
- 3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

China's economic growth rate rebounded to 3.9% in the quarter ended September 2022. The result beat the 0.4% growth seen in the second quarter. However, the Chinese economy faces challenges, as the country contends with a sharp slowdown in activity due to Beijing's stringent zero-Covid policy, a prolonged property slump, geopolitical uncertainties and risks of global recession.

Besides, Asia's factory output weakened in October as global recession fears and China's zero-Covid-19 policy hurt demand and caused persistent supply disruptions. Manufacturing activity shrank in South Korea, Taiwan, Malaysia and Thailand in October, and expanded at the slowest pace in 21 months in Japan. Indonesia and Vietnam also reported more sluggish expansion in October.

Asia's economic growth is expected to be affected due to rising interest rates, rising inflation, the conflicts in Ukraine and China's economic slowdown.

The Group expects the operating environment to be challenging. The Group remains vigilant and committed in exercising cost discipline and will take necessary remedial actions, where possible.

As set out in the announcement dated 8 September 2022, The Group announced that an accident had occurred involving a tower crane owned by the Company's 60% owned subsidiary, Yongmao Machinery (Hong Kong) Co Ltd in a customer worksite in Sau Mau Ping, Hong Kong which collapsed during operations and hit workers in the worksite resulted in the death of three workers and six other workers injured. The Group is working with the local authorities on the on-going investigations arising out of the incidents.

There is no significant development in respect to the Writ of Summons and Statement of Claim filed by CMNT Investment Pty Ltd, an Australian company since the last announcement dated 15 September 2022.

5. Dividend
